Nič več pregrevanja!
Vaš izbrani izdelek.

S skupno hladilno površino 16800 mm² lahko AceBook 8, ki odvaja toploto z notranjimi bakrenimi cevmi in ventilatorjem, hitro prenaša toploto iz procesorja, se izogne nepričakovanemu ponovnemu zagonu ali grozljivemu modremu zaslonu smrti, hkrati pa ohranja nizko raven hrupa. Učinkovit, stabilen in tih je popoln za vaše delo, kjer sta koncentracija in učinkovitost izjemnega pomena.

16,800mm² Total Cooling Area

No More Overheat, Just Stay Quiet

With a total cooling area of 16,800mm², AceBook 8 which dissipates heat by its inner copper pipes and fan can rapidly transfer heat from the processor, avoid unexpected restart or dreaded blue screen of death while maintaining low noise levels. Efficient, stable, and quiet, it's perfect for your work where concentration and efficiency are of utmost importance.
